// AI AGENT PROOF OF CONCEPT

We start with our use case lab. It enables your organization to swiftly transition from numerous use cases to a prioritized one that demonstrates high value and feasibility.

The lab completes with an experiment in the form of a Proof of Concept (PoC). In one week, we will deliver the PoC to validate the insights gained from the lab.

We will bring you that crucial moment of insight – that light bulb moment.

WHAT YOU GET

// DISCOVERY SESSION

Identify & prioritize a single use case from multiple based on SaaSberry's high value, high feasibility framework.

// DESIGN

Our business analyst, architect, engineer, data engineer and designer will design a PoC aligned with the use case & business objective.

// ROADMAP

Implementation plan for a prototype or production build with defined steps and resources.

Establish success metrics to measure the impact of your AI agent solution.

// BUILD + TEST

Engineering build of the PoC AI agent solution.

Test & iterate.

// PROOF OF CONCEPT

Launch the AI PoC for your team to explore.

WHY PROOF OF CONCEPT?

VALIDATE

Observability: Develop quantifiable measures of performance indicators (KPIs) and return on investment (ROI).

Testing: Built to simulate real-world scenarios, the PoC offers tangible evidence that the solution can solve specific problems, thus supporting strategic business decisions with data.

RISK MITIGATION

Lower Cost: At a smaller scale, initial development cost is lower while still allowing key learnings.

Risk Reduction: By testing and validating assumptions in a controlled environment, operational risks are minimized.

SPEED

Rapid Build & Deployment: In just a week, the PoC enables you to quickly identify what works and what needs refinement.

Fast Results: Quick feedback provide clarity among stakeholders, build confidence for investment and help the wider organization to understand integration elements.

ALIGNMENT + COMPETITIVE ADVANTAGE

Customized: The PoC is developed to address unique business challenges and objectives of your use case.

Competitive Edge: Drive innovation by sparking discussions, ideas and *aha* moments.

SMART USE OF RESOURCES

By focusing on a smaller, manageable scope, you validate quickly. Our team of experts will save your resources from avoidable frustration and blockers.
